

Rearchitecting senior exchange listings and capital market execution.

Case Studies

EXCHANGE
LISTING

\$16 million U.S. Initial Public Offering. Nasdaq Capital market listing.

Key Takeaways

- o Emerging Medical device healthcare company with a proprietary, FDA cleared surgical implant system for sacroiliac joint fusion procedures
- o ECG telemedicine technology to bring new medical grade heart attack detection technology to the treatment and prevention of cardiovascular disease
- o Pre Revenue Company with an EBITDA loss of \$6.1 million prior to the IPO.
- o Firm commitment downsized underwritten initial public offering of 3,000,000 shares of common stock for \$16 million US at \$5.00 per share
- o At the \$5.00 per share offer price, Tenon had a market cap of \$56 million, closed at \$22.50 for a return of 350% from the offer price

Highlights

- o Introduction, negotiation and management of underwriter for firm commitment offering
- o Successful management and integration of complex compliance with Nasdaq, SEC regulatory, corporate governance and legal listing requirements

“Exchange Listing has provided incredible value with its extensive network and deep capital market guidance and actionable knowledge. Their team was hyper focused on the successful outcome of securing necessary growth capital and the Nasdaq listing of Tenon. With the closing of this financing, Tenon Medical can begin to address the greatly underserved market opportunity that exists in this space.”
